

School Messenger: Communicating With Parents Quickly

What if there is a day this coming winter where the weather is severe enough that the schools in Carbon County School District #1 must be closed early? All parents in the district would be contacted in a matter of minutes by our School Messenger system.

School Messenger is an automated phone calling system that calls each phone number on its list and plays an important announcement pre-recorded by a school district administrator (usually a school principal or central office administrator). The calling lists can be adjusted to cover the entire district, a specific school or even an extra-curricular activity (for example, the parents with a student on the volleyball team could be called).

School Messenger is used for more than just “emergency” announcements. It can also be used to alert parents to important dates or events (for example, parent-teacher conferences, choir performances, state tests and many others).

When you get a call from School Messenger, please listen carefully to the full message. There is no need to respond or call us back—the system automatically records that you received the message. Please make sure that we have your correct, most up-to-date phone number on file so that you do not miss any messages.

Parents are a crucially important part of the team in Carbon County School District #1. School Messenger is a valuable tool in allowing us to share the most important and current information with parents quickly.
